

The Goodbye Game

Adult Guidance

These cards can be used in several ways to practise vocabulary related to saying goodbye.

As a whole class:

1. Give out the Spanish word cards - the English word cards are not used in this game.
2. Call out an English phrase - children who have the matching phrase in Spanish must hold up their card and say their Spanish phrase. Every few minutes, call out '¡Cambia de cartas!' [Change your cards!] so that children have the chance to use different phrases.

Work in pairs, sharing one card, to give children a better chance of spotting their phrase.

Give children one card each.

Give children two or more cards so that they must listen out for different phrases.

In pairs:

Print off several sets of the Spanish and the English word cards. Shuffle the cards and deal them out between 2 or 3 children. Play a game of '¡iguales!' [Snap!]

¡Adiós!
